HE IS BETTER.

General Grant Awakes Very Materially Refreshed from a Nice Night's Rest.

The Patient Able to Stand Up—He Recovers His Strength to a Remarkable Degree.

Senator Chaffee Does Not Apprehend His Immediate Death—The Latest Bulletin.

ANOTHER DAY.

General Grant Lays in for the Nineties Again.

New York, April 8.—(General Grant) passed a very quiet night. There was no recurrence of the hemorrhage, and official bulletins were quite reassuring.

About 4:30 Senator Chaffee and U. S. Grant, jr., emerged from the house and gave an encouraging report of the general's condition.

General Baskin, about 6 o'clock, in response to a question said: "General Grant has passed a very easy night and is now resting quietly."

APPEARS TO SLEEP.

General Grant sleeps or appears to sleep at any or all times that suits his inclination, but last night his long rest began about midnight and continued until 5 o'clock with little interruption.

A professional nurse attended the patient during the night, while the family and physicians gained considerable sleep. About 5 o'clock, when the general aroused himself, he stood upon his feet briefly, but did not essay to move about.

At 11:45 a. m., John Foley, who visited General Grant's residence to-day, was met by C. L. Ford Grant who said his father had passed a very quiet and comfortable night, that he suffered very little pain and had slept comparatively well. The depression of yesterday had entirely left him and he seemed to have returned to about the same condition that existed two or three days ago.

12:30 p. m.—General Grant has been comparatively comfortable during the morning. He coughed very seldom. He had some temporary pain in his throat which necessitated the application of cocaine. He has taken nourishment and had no pain in swallowing. His pulse is now at 66, with temperature at 99.

[Signed]

SHIRAZI. 12:30 p. m.—Senator Chaffee said the general's face looks as well as it has in a month past but his body is becoming emaciated. The patient walked in his room to-day. Senator Chaffee does not apprehend immediate death.

HE IS STRONGER.

Drs. Barker, Shradly, Douglas and Sands were consulted at 2 p. m. At 3:30 p. m. Dr. Barker came out. He said: "Our patient is stronger today than yesterday. His pulse also shows it. He dropped asleep after examination. I have no apprehensions of critical results to-day or to night."

IMPROVED.

3:30 p. m.—Drs. Shradly and Barker say that General Grant's condition is improved. His pulse is sixty-six and his temperature ninety-nine.

Sympathy for General Grant.

CHICAGO, April 8.—The Trojans club at a meeting last night adopted a resolution of sympathy with General Grant, saying: "To General Grant his sincere sympathy is extended in this hour of his great suffering and trial, a sympathy which is heartily shared by the great mass of American people and by the masses of enlightened men of the civilized world."

After Mrs. L. Butler.

By Telegram to THE SENTINEL. Boston, April 8.—A suit has been brought in the supreme judicial court for Suffolk county by the National Soldiers' Home for disabled volunteer soldiers against Benjamin B. Butler to recover \$1,500. It is alleged for failure

to account while acting as treasurer of the home.

Food at Montreal.

By Telegram to THE SENTINEL. MONTREAL, April 8.—The streets are in a fearful condition, locomotion being almost suspended. Fears are entertained that the city will be flooded. The snow in some places is nearly five feet deep and it has been raining since last evening.

Quite Complimentary to Judge Lowry.

The Indianapolis Sentinel editorially pays this compliment to Congressman Robert Lowry: "Hon. Robert Lowry, congressman from the twelfth Indiana district, has well earned for himself the esteem of the people who continue him in congress to represent their interests. An able lawyer, a profound thinker whose judgment is accurate and reliable, a hard worker, and one who proposes to achieve success in whatever he undertakes, Mr. Lowry is justly popular at his own home and wherever well known. His constituents are fortunate in their selection of a representative whose ability and worth do credit to the position he fills. Faithful to the interests of his district, he yet remains at Washington to accomplish all the good he can in the public service. Mr. Lowry is emphatically the right man in the right place."

A ROYAL TOUR.

The Prince of Wales' Party Visit Ireland.

By Cable to THE SENTINEL. DUBLIN, April 8.—The Prince and Princess of Wales and their eldest son, Prince Albert Victor, left Holy Head this morning and arrived at Kingston at half past eleven. Kingston is crowded with people and is profusely decorated with flags and bunting.

AT DUBLIN.

DUBLIN, April 8.—Earl Spencer, lord lieutenant of Ireland, received the prince and his party. The prince was made the recipient of numerous bouquets. The crowd, which numbered thousands, kept up a continuous cheering during the reception and cheered loud and long as the royal guests proceeded to Dublin. They arrived in Dublin at 2 o'clock, and were accorded a splendid reception.

LONDON, April 7.—The Prince of Wales left here this evening for Ireland.

The foreign office has published the correspondence respecting the negotiations of Great Britain and the United States for a commercial treaty to control trade with the British West Indies. On the 4th of December Minister West forwarded to Lord Granville Secretary Frelinghuysen's draft of a treaty, in which 150 articles are scheduled, and in which the United States agrees to abolish duty on sugars under grade of No. 16. In the letter accompanying this draft Secretary Frelinghuysen insisted upon the exclusion of third parties as indispensable. On February 12, 1883, Lord Granville wrote to Minister West that it was impossible to accept the proposals of the United States. He said they would revolutionize the conventional stipulations which govern the commerce of all nations, and would render the favored nation clause a fruitful subject of dispute, and would intrude upon the international law.

DUBLIN, April 7.—The city is in gala attire in honor of the arrival to-morrow of the Prince and Princess of Wales. The royal party on their arrival at Holyhead, England, were received by enthusiastic crowds. They at once embarked on the royal yacht, Osborne, which will start at sunrise Wednesday morning for Kingston.

PARIS, April 7.—M. Henri Brisson, the new president of the council of ministry, read before the chamber of deputies this afternoon a statement of the policy agreed upon by the new ministry.

In regard to the China statement, he declared that France would demand from China complete pay for all the French rights usurped, resulting from treaties made by France with Annam. France would be happy if amicable negotiations sufficed to attain this pay for French rights, but the end would be attained by arms if necessary. The government, however, was resolved to not modify the character of the French expedition in Tonquin without the approval of the chamber. M. Brisson concluded his statement by asking the chamber to vote the government the remainder, amounting to 30,000,000 francs, of the credit asked for on account of the operations in Tonquin. This was done.

It is reported here that an armistice has been signed between France and China, and that China has agreed to evacuate Tonquin within a month.

Regarding Mrs. Garfield's Marriage.

By Telegram to THE SENTINEL. NEW YORK, April 7.—From the "Tribune" of Wednesday morning. Cauden O. Rockhill, the brother-in-law of Mrs. Garfield, mentioned in a recent letter to her, the newspaper stories about her reported intention to marry and received in reply a letter written on the 11th of April from which we take the responsibility of making an extract. It will be seen that she thought a dignified denial by her friends might be proper, but nothing as it seems to us can be more proper

and effective than her own womanly words.

"This cruel rumor, which seems to have been afloat for two or three months, did not reach me till three days ago. Nothing that has ever been said about me has so hurt and offended me as this, and the deepest humiliation is that so many are ready to believe it. To me it seems just as much an insult to be asked whether it is true as it would be were the dear general still here. That anyone can think me capable of being false to his memory seems like being regarded as a criminal. A dignified denial by my friends, I suppose, can do no harm; still it hurts me to feel that any denial is needed."

CHICAGO, April 8.—The daily News in a special edition to-day says that Sidney Smith is elected mayor and the count will give him 2,000 majority. The democratic papers claim Harrison's majority is 400.

MOORE'S MEMORANDUM.

The Secretary of the Fort Wayne R. R. Y. M. C. A. figures the Local Lodge to Rural Chicago's Three Items.

Secretary Moore, of the R. R. Y. M. C. A., has prepared his annual report of the doings of the local lodge to be read at the international convention, at Atlanta, Ga., in May. From it these interesting items are culled:

Total attendance at reading rooms from July 1 to April 1, 48,483; total number of baths taken in the same time, 6,074; number of lectures delivered, 8; number of membership tickets taken out, 800. These all expired February 1. Since then 255 have renewed their membership and new members are received daily. The number of papers distributed among the men were 10,000. The average attendance upon the Sabbath service for men was only 40.

The attention of the secretary was called also to a comparison of some of these items with the same in the last annual report of the Chicago city association. That association, says Mr. Moore, has three railroad reading rooms in different parts of the city. The visitors at these rooms during the whole year amounted to 49,200, being less than the attendance at our one room during nine months, and the baths taken in the year were 3,800 against 6,074 in ours for nine months. We think our citizens should know the extent of this work in the numbers reached and benefited as compared with like work elsewhere. The comparison is certainly very encouraging to those who feel an interest in and have aided the association hitherto. It could not be otherwise than that such a patronage would tell upon the rooms, in the wear upon the matting, carpets, the bath tubs, water, heater, towels and furniture. The bath tubs will have to be replaced with new ones soon and parts of the heater have to be renewed frequently. In addition to the sums secured while Mr. Ingerson was here the finance committee will approach our citizens for more funds to carry forward the good work. Are there not one hundred men in this city who would give a monthly subscription of one dollar, the same to be called for each month by the railroad secretary or assistant? There are more than that number who would not feel the payment of that sum, and it would enable the association to carry on its work with energy and excellent results. We learn that such an appeal will soon be made and THE SENTINEL hopes it will meet with a ready response.

Restored Her Sight.

Yesterday a remarkable surgical operation was performed on the mother of Mrs. Wm. Thiel, who lives on West Main street. Some five or six years ago a cataract or abnormal growth developed itself in the lady's right eye, and so far impaired her eyesight that for four years she has been blind. Yesterday Dr. T. J. Dills cut the cataract away with the assistance of Dr. Howard McCullough, and at the end of the operation the old lady was able to distinguish the time of day on Dr. Dills' watch. This is a remarkable operation and phenomenal from the fact that the lady's sight was restored.

Thieves Enter the McKinnie House and Make a Nice Hunt.

Last night sneak thieves entered the McKinnie house and ransacked the north end of the hotel. In the general store room they found the cigars and carried away 6,000 smokers. The weeds are the finest made and cost Will McKinnie \$200 each. The thieves entered sleeping apartments, but found nothing to suit them save a \$10 overcoat belonging to Mr. McKinnie. Sheriff Nelson was sent for and is investigating the theft.

The Canary, Liversy and Gilmore combination appeared in their specialties at the Princess rink last night to fully 500 spectators. Carrie A. Gilmore is a marvel on roller skates and altogether as pretty as a picture. Will Liversy, who is a professional acrobat, executed wonderful feats on the rollers, while D. J. Canary did the act of the evening on his bicycle. The young man assumed every imaginable position on the wheel and concluded by detaching the handle and self regulating wheel. The youth deserves the title "Wizard Bicyclist." To-night the trio appear for the last time in a complete change of program.

Kept His Friends from Sleeping.

F. O. McCleary, of Washington, D. C., the prominent solicitor of patents, was troubled for several weeks with a severe cough, which not only deprived him of sleep but annoyed others. The only thing that cured him, he says, was the new preparation Red Star Cough Cure, a purely vegetable compound, free from opiates.
